Election/Restrictions

1. This application contains claims directed to the following patentably distinct species:

- a. Species I is identified in Figure 12.
- b. Species II is identified in Figure 13.
- c. Species III is identified in Figure 14.
- d. Species IV is identified in Figure 15.
- e. Species V is identified in Figure 16.
- f. Species VI is identified in Figures 17-19.

The species are independent or distinct because these species are not obvious variants.

2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claim appears to be generic.

3. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

4. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after

the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).

5. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

6. A telephone call is normally made prior to sending-out a written election requirement. However, per Section 812.01 of the MPEP, a telephone call is not required if the species election is considered complex, as is the case for this Instant Application.

7. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

8. Any inquiry concerning this communication or earlier communication from the examiner should be directed to Anthony H. Winner whose telephone number is (571) 272-6654. The examiner can normally be reached on Monday-Friday from 9:00 am to 5:00 pm.

Comments: Applicant has submitted new claims 24-46 to replace claims 1-23.

However, no statement put forth the cancellation of claims 1-23.
